Oral Health Matters

The screenshot shows a web page with a header for 'JET' and 'MAYO CLINIC'. The main content area is titled 'Doctors' Notes' and features an article 'WHY GOOD DENTAL HEALTH MATTERS' with a sub-headline 'Your smile may be the key to your health ...' and a photo of a smiling mouth with a toothbrush. Below this is a section 'Adult health' with a sub-headline 'Oral health: A window to your overall health' and a paragraph 'Your oral health is more important than you might realize. Get the facts about how the health of your mouth, teeth and gums can affect your general health.' The page also includes a 'THE BLOG' section with a photo of Glenn D. Braunstein, M.D., and a section 'Why Oral Health Leads to Overall Health'.

Why Oral Health Leads to Overall Health

- ✓ Daily Brushing & Flossing
- ✓ Regular Dental Cleanings
- ✓ Regular Dental Checkups
- ✓ Limiting sugary foods
- ✓ No ice-chewing
- 🦷 **Wait! You may be forgetting something!**

Dental restorations can affect your overall and oral health

Do you have any of these?

- 🦷 Dentures
- 🦷 Crowns
- 🦷 Bridges
- 🦷 Veneers
- 🦷 Implants
- 🦷 Orthodontic Appliances

Who makes them?

- 🦷 A dental laboratory technician

Where are they made?

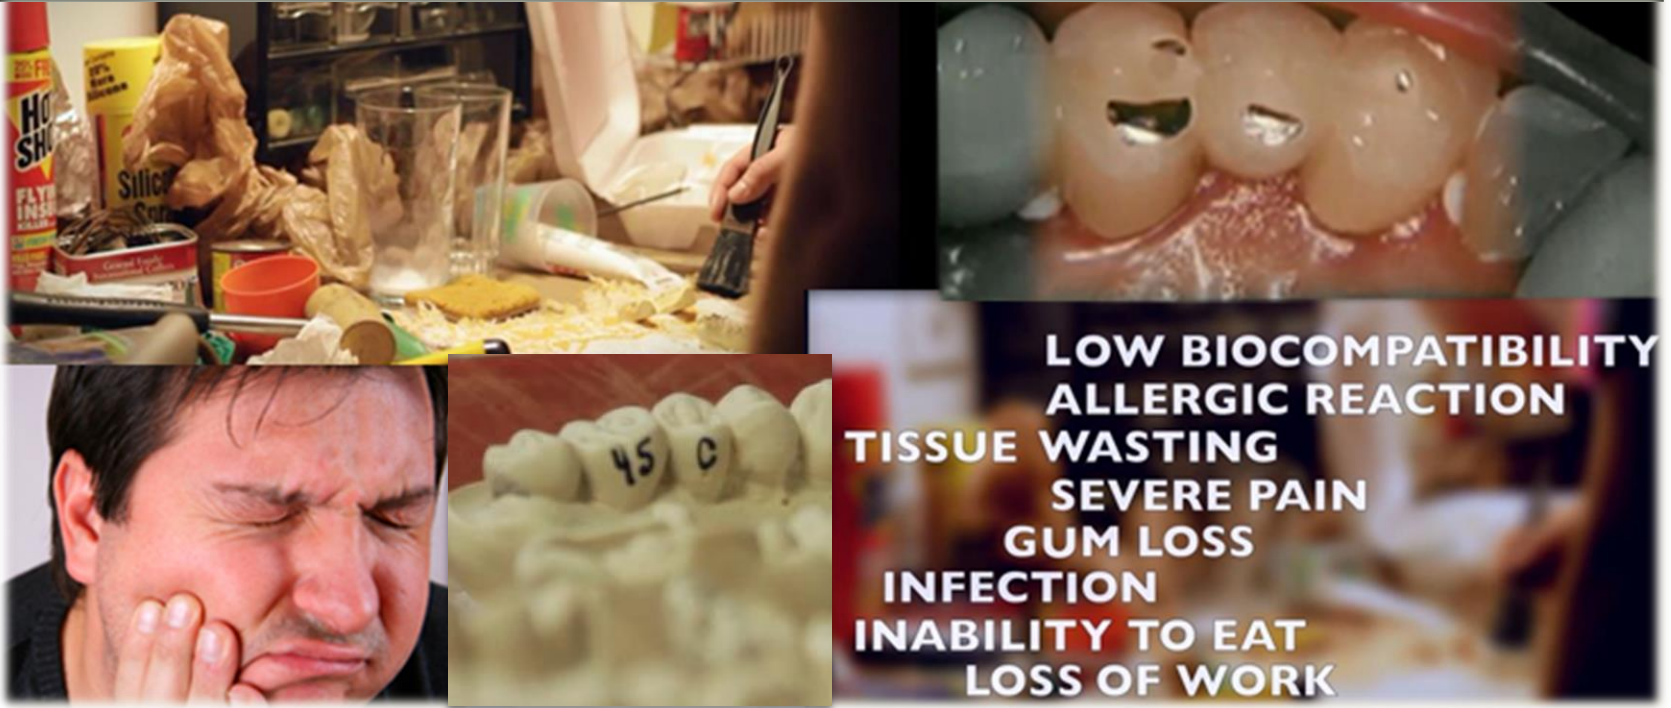

- 🦷 A dental laboratory

Americans spend \$7 billion annually on dental restorations

The Deal on Dental Restorations

It is important to know what materials are in your dental restoration because improper materials, such as lead, may cause complications.

What's the worst that could happen?

www.whatsinyourmouth.us

Why is this acceptable?

The **scary** Truth

- ❗ In America, most states set no minimum standards for persons to be employed as dental technicians.
- ❗ Domestic dental labs remain unregulated in more than 40 states.

This photo is from an actual, unregulated dental lab featured in a news report.

CDTs

- ❶ Certified Dental Technicians are certified by the National Board for Certification in Dental Laboratory Technology (NBC).
- ❷ This is the only voluntary certification program for dental laboratory technicians recognized by the American Dental Association.

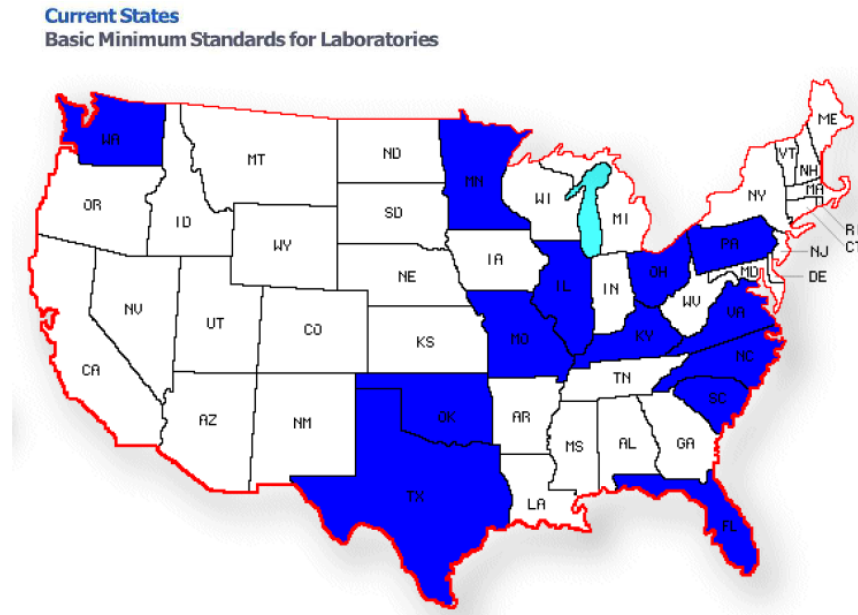

CDLs

- ❶ The NBC also certifies all Certified Dental Laboratories (CDLs).

Standards DO Exist

Only thirteen states in the U.S. require either certification or continuing education for dental technicians.

Certifications Are NOT
Mandatory

The Bottom Line

How You Can Help

Ask your dentist...

- ❶ Do you use a Certified Dental Technician for your laboratory work?
- ❷ Is the laboratory you work with certified and by whom?
- ❸ Where is your dental laboratory located?
- ❹ What materials are in the restorations you are prescribing for my treatment plan?
